For some time past notices have been posted in the eastern and northern parts of the county announcing that a public trial of the draft of the Hapgood Sulky Plow as compared with walking plows would be held at Bronson on the 18th and at Ozark on 20th inst. The result of both trials has demonstrated that the Hapgood Sulky Plow at least runs lighter and does better work than any walking plow cutting the same number of inches. At Bronson a sixteen inch Sulky was put into the field in competition with a fourteen inch Furt & Bradley walking plow. The result as reported by a committee was in favor of the Hapgood. Mr. Jas. Burns who represented Mr. Beck and the Hapgood plow at the trial informs us that he sold three Sulky plows on the ground. At Ozark the committee reported in favor of the Hapgood. Mr. Burns sold two Hapgoods on the ground. At both trials the average depth plowed was a fraction under eight inches.
